BIO:

Corte di Lunas is a folk rock music band from Northern Italy. After 10 years of maturation and many performances in Italy and abroad, the band has created a special chemistry which pervades their compositions in live shows.

With their unique costumes and strong presence, the public's eyes stay glued to the performance. The music of Corte di Lunas cuddles and rocks the audience at the same time. A combination that leaves a deep and lasting impression.

The tasteful blend of folk and rock, enriched with pure and fresh scents, causes more craving. The polyphonic choirs and theatrical influences powerfully boost the stories and create new horizons to build bridges instead of walls.

PRESS RELEASE:

The last album “**Tales from the Brave Lands**” tells the stories of ancestors, scattering words of wisdom. A concept album inspired by the legends from Friuli and Northern Italy, the band’s native land. Through eleven tracks, the band goes back to its roots to give voice to stories of strong women and miserable creatures, of heroes and peaceless monsters, of wild nature, rushing rivers, barren mountains and stormy seas. Tales of a Brave land.

Forgotten and new life messages reach the surface by the sense of genuine passion and authenticity of the band. So let the Ouroboros merge past and future and watch it spreading its wings!
